Description

We are representing "Agrostemin" I.L.c., was founded in 2001 with the sole task to protect the integrity and reputation of AGROSTEMIN® preparation, which has been acquired for decades through successful application in the agriculture of Yugoslavia and worldwide. Having confirmed the quality by the Author, the market was offered the product of standard and proven efficiency, and the signature of Danica Gajic, PhD, marked on all packages was the proof that it was of the known origin and certified quality. By the decision of the Ministry of Agriculture and Water Management of the Republic of Serbia No. 321-01-02214_2019-11 dated February 10, 2020 AGROSTEMIN® was entered into the Register of substances used for plant nutrition and soil improvers, with the following data: Description: Other fertilizers and special products Type: Product containing plant extracts Manufacturer: "Agrostemin" I.L.c. Belgrade, S e r b i a By the Decision No. 3/2-08-9291/02 dated January 13, 2003 of the Federal Secretariat for Work, Healthcare and Social Welfare, the preparation was given an official recognition that it was an ecological substance, i.e. it was not classified into the group of poisons. By the Decision of the Federal Institute for Intellectual Property no. 44479 dated April 02, 2002, "Agrostemin" I.L.c. was acknowledged the brand trademark AGROSTEMIN® and it was entered into the Registar of brand trademarks under the number 44479. At the same time, the brand trademark was internationally protected under the number 778540. By the decision of the Directorate dated January 29, 2002, the branch unit was founded for the manufacturing, storing and wholesale trade of AGROSTEMIN® preparation. The production line was verified and registered by the competent inspection bodies. "Agrostemin" I.L.c. does not have its own distribution-sale network.

Offer

Our unique product

Plant nutrient of wide effect. Natural origin agent created on the base of corn cockle (*Agrostemma githago*) dust and the other plants (cultivated, as well as weeds), invented by Dr Danica Gajic.

Intended to increase the quantity and quality of yield and to optimize the cost of agricultural production. Certified for organic farming too.

Based on decades of research, homologation, successful use in field and verification by numerous scientific institutions and eminent scientists, both at home and all over the world, Agrostemin is lined up in standard scientific farming methods.

Cooperation Offered

1. Sales / Distribution
