Bilateral Meetings

- (14.00-16.00)

Description

Pécsi Brewery is an independent brewery in Hungary with 170 years long uninterrupted history. Our facility meets the highest international standards for product quality and environmental protection. We use our own water source and have stable access to the regional supply of ingredients. While our traditional lager products are among Hungary's most popular beers, we have successfully started to market our new, unfiltered and top-fermented beers, such as Pale Ale, APA, and Wheat Beer. Pécsi launched its Organic Product Series in 2019, including Hungary's first Organic Gluten-Free Lager. We are proud to be internationally KOSHER certified as of 2021.
